

## Data sheet

# Full bore ball valves (PN 16/25/40)

### Description

Danfoss full bore ball valves are shut off valves developed for District Heating and District Cooling networks, with circulating medium.

It is a range of steel ball valves with fully welded body.

The valve design makes them ideal for building installation due to:

- optimized flow design in the valve.  
This means increased capacity, reduced flow resistance and thus lower pump energy cost;

- optimal tightness and long lifetime due to design and material selection in ball seal and stem seal (Carbon reinforced PTFE);
- the valves are maintenance free, besides the shut off valves in the core distribution network Danfoss offers a range of supplementary valves, e.g. hot tap valves, branching valves, house insertions and twin valves.

#### Main data:

- DN 15-400
- $k_{vs} = 25-37.500 \text{ m}^3/\text{h}$
- PN 16, 25, 40
- Temperature: 0 ... 180 °C
- Medium:  
Circulation water / glycolic water up to 50%
- Min. storage and transport temperature: -40 °C

#### Approvals and norms:

- 100 % final inspection. Leak and shell test as well as dimension and functionality test is performed on each and every valve according to applicable standard (EN 12266 part 1 P10-P11-P12 & part 2 F20).
- PED Directive 97/23/EEC Modul H1
- Danfoss A/S is certified according to ISO 9001
- Furthermore certified according to ISO 14001 and OHSAS 18001.

AUMA NORM electrical actuators for Danfoss ball valves

Danfoss ball valves		Auma Actuators	
DN [mm]	Type	Operating time for 90° turn [s]	
50-65	SG 05.1	16	
80	SG 07.1	32	
100-125-150	SG 10.1	32	
200-250	SA 7.6 (22) + GS 100.3 + VZ 4.3	142	
300	SA 10.2 (22) + GS 125.3 + VZ 4.3	142	
400	SA 10.2 (32) + GS 160.3 + GZ 160.3 i=8:1	207	

**Features:**

- 2 limit switches – opening / closing
- 2 torque switches - opening/ closing
- Heater
- Blinker switch for operating phase
- Manual operation with hand wheel
- Thermo switch

**Main Data:**

- Nominal voltage: 3×400 VAC, 50 Hz
- Grade of enclosure: - IP 67 (DN 50-150)  
- IP 68 (DN 200-400)
- Wiring diagram: - TP 110/001 (DN 50-150)  
- TPA 00R1AA-000 (DN 200-400)

The actuators can be equipped with various accessories.  
Control and regulating unit AUMA Matic in the basis design can be supplied.  
For other mains voltages than 3×400 V/50 Hz or additional questions please contact us.

When commissioning and under certain problematic system conditions, it can be necessary to choose slower actuators to avoid water hammering and oscillations.
